Claims 5-9 stand withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected species, there being no allowable generic or linking claim. Election was made **without** traverse in Paper No. 7.

Claim 3 is rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention.

The subject matter of claim 3 is not shown and it is unclear how the engaging sections could be formed in a plane perpendicular to the rotational axis. Thus this subject matter will not be further examined on its merits.

Claims 1-4 are rejected under 35 U.S.C. 102(e) as being anticipated by Hashiguchi et al '346.

Disclosed are housing 12 having open mouth 18, terminals 13, and pressure member 14 rotatable between open and closed positions. Sections 17 of some of the terminals can be considered bearing sections, while sections 17 of the rest of the terminals can be considered engaging sections. Note that in Figure 2 the pressure member is held in the open position by engagement between 17 and 21.

NOTE: if the following language were added to claim 4 it would define over Hashiguchi et al and all other art of record:

Line 2, insert – each of – after “wherein”, and change “are” to – is --; last line, insert – , said engaging section and said bearing section lying on opposite edges of said supporting arm – before the period.

Art Unit: 2833

Applicant's arguments filed June 18, 2003 have been fully considered but they are not persuasive. Note that if the language suggested above were added to claim 4, it would define over Hashiguchi et al '346 and all other art of record.

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
